What is CollisionLink?

CollisionLink is a service designed to streamline the collision parts procurement process between collision shops and dealers from time-consuming faxes and phone calls to the Internet. Using CollisionLink, dealers can leverage automaker parts programs for incremental sales opportunities.

What are the key features of CollisionLink?

- Orders consolidated into one user-friendly, online portal for faster order processing
- Automated reimbursement submissions to eliminate time-consuming paperwork (*select OEMs)*
- VIN-verified parts orders for order accuracy and reduced part returns (*select OEMs)*
- Seeing the ENTIRE estimate from your body shops to maximize sales opportunities
- Effectively communicate important information to your shops, such as order status, shipping date, cost and more!
- A team of professionals to train your staff and collision shops

What resources are available for CollisionLink?

We have a dedicated Customer Support team in place to assist with training, troubleshooting and program configuration. Your Account Services representative is available for continued onboarding and program maximization support.

What shops are on CollisionLink?

Upon enrollment, you have access to a list of all shops who have added you as a vendor. Your Account Services representative can work with you to identify high-volume transacting shops.
